

COURSE TIME CHANGE!

CHEN E4600

Atmospheric Aerosols

Instructor: Prof. V. Faye McNeill

vfm2103@columbia.edu

Time: **WEDNESDAYS 6:30-8:30 PM**

Location: 337 Mudd (Morningside Campus)

The first class meeting will be:

Wednesday, September 8

Course description:

Atmospheric aerosols and their effects on atmospheric composition and climate. Major topics covered will include: aerosol sources and properties, aerosol dynamics, techniques for characterization in the field and laboratory, aerosol chemistry, and aerosol direct and indirect effects on climate.
